Summary

Multi-certified Expert in Cyber Security and ICT Risk domains. CISO, DPO.

InfoSec specialist whose qualifications include a degree in '*ICT Security and Audit*' from Solvay Business School; CISM, CISSP, ISO 27001 Lead Implementer and CEH designations. Detailed knowledge of Cyber security tools, technologies and best practices including CoBit and ISO 2700x family.

Ten years of experience in the creation and deployment of solutions protecting networks, systems and information assets for diverse companies and organizations. Height years as ICT Security Officer in a financial company and CISO in a Bank. Since 2017, Freelance and manager of Vulpoint.

With strong practices in GDPR, ICT Risk management, Cyber Security including OT and Scada, and Awareness areas in collaboration with the top management, the different Business units, the CIO, COO, HR, Legal, and Compliance departments, **I propose to enforce the Information Security and Data Privacy as a 'Culture' by default.**

For me, Information Security is not a sprint ... it is a marathon you have to do with the top management support.

High Level

- Maintain ISMS and update ICT Risk assessment.
- Challenge ICT Projects and keep them aligned with the ISMS.
- Enforce IT Security in new Business projects, and propose realistic solution.
- Create and update Information Security Policies. Make Guidelines for understanding and enforce Policies with Security Awareness.
- Create and enforce internal controls and setup Security Operation Center (SOC)
- Promote Data Privacy and prepare the organization to comply with the future GDPR

Technology skills

Security management:

- Firewalls, WAF, SIEM and SOC, IPS, IDS, NAC, Mail/Web-filtering, IoT, Scada, Log Management and VPNs.

Security review, controls and enforcement:

- Systems - Unix (Solaris), Linux (all), Windows (all)
- Databases - Oracle, MsSQL, MySQL
- Virtualization
- Performance, Design and Monitoring
- Storage Security (including Cloud)
- Cloud technologies (Amazon Storage and Virtualization, Google services, Windows Azure and Office 365)

Knowledge

- Information Security, Cyber Security and related Banking Regulations (Belgian NBB/BNB, FSMA, Luxemburg CSSF, FINMA), Data Privacy (GDPR), and NIS-D
- BCP, BRP, PenTest, Forensics
- CoBit, ISO-2700x, NIST-800, ISO-22301, ITIL
- SOC and SIEM, Security team, crisis team
- Risk Management, BIA, Risk Assessment
- Outsourcing and Cloud technologies
